

February 09, 2026: On Advise from the Public On Where to Look in the Epstein Files

Personally, I am interested in learning more from the victims of this operation (and I don't care one bit about allegations of their own criminal activities - law enforcement officers have *no problem at all* believing all kinds of criminals to arrest people that they *want* to arrest!)

The secret files had an entire section inside designated to **a “masseuse list” which featured 254 redacted names.**

<https://www.thesun.co.uk/news/37696224/epstein-massage-room-cameras-andrew-manchattan-lair/>

I am also interested in learning more about what kinds of data feeds were linked to the cameras (cameras were found but no videos? Perhaps because they were viewed 'in the cloud' and stored in 'offshore locations'?)

And, finally, what other offshore locations and bodies could those cameras or other intelligence gathering techniques have been serving?

<https://www.thetimes.com/world/middle-east/article/was-jeffrey-epstein-mossad-agent-spy-israel-w6p35b9v6>

The files include claims from a confidential informant to the FBI that, far from disliking Israel, Epstein was in fact employed by its spy agency, Mossad. An FBI report from the Los Angeles field office written in October 2020 said the bureau’s source had become “convinced that Epstein was a co-opted Mossad agent”.

Over the weekend, Binyamin Netanyahu, Israel’s prime minister, suggested Epstein’s friendship with Barak was evidence that he was not a spy. “Jeffrey Epstein’s unusual close relationship with Ehud Barak doesn’t suggest Epstein worked for Israel. It proves the opposite,” Netanyahu wrote on X.

...

The year before, Epstein also asked Barak if someone had asked him to “help Obtain former mossad agents to do dirty investigations”.

...

According to the files, Epstein arranged and contributed to an investment of \$1.5 million in an Israeli start-up, Carbyne — formerly, Reporty Homeland Security. He warned Barak that the “israeli trick of using cyprus to avoid taxes is silly antiquated and dangerous,” in regards to their investment.

Epstein also e-mailed himself several Israeli startups and inventions, including a conceptual bracelet that turned into a touchscreen.

In 2003, Epstein applied for a second passport for his associate Ghislaine Maxwell, in order to “avoid conflicting visa stamps” when travelling. “Ms. Maxwell’s responsibilities ... require her to

travel extensively throughout the world. She is currently scheduled to travel on March 16, 2003 to Israel, Jordan and Saudi Arabia," he wrote.

"Other visits were not officially documented. An email dated May 20, 2012 asked Lesley Groff, his secretary, to: "find me flights from paris to tel aviv, then from tel aviv, to new yorl or tel aviv to yalta(crimea)." On May 21, Epstein added: "Book24 to tel aviv and first class to ny on 27"."

Epstein, born to Jewish immigrants and brought up in Sea Gate, a gated, predominantly Jewish community in Coney Island, is known to have visited Israel with his family in 1985. The trip included stays at the Plaza Hotel in Tel Aviv and the King David Hotel in Jerusalem, where Epstein reportedly hired a limousine to take his parents around.

Nushbacher, a senior UK national security official and lecturer in war studies at the Royal Military Academy Sandhurst, explained the possibility of Epstein's involvement and the structure of recruitment by the spy agency in Israel.

"Every intelligence agency has people who work for the agency, who are on salary, who have their pension paid for by the agency, we call them officers," she said. "Then there are people whose officers influence them to do work for their agency; sometimes paid, sometimes manipulated, sometimes blackmailed — they're called agents.

"And then there are people who are assets. They are just useful. Is it possible that Epstein was an asset to the Mossad? Yes. Do I think he was an agent of any intelligence agency, I think it was unlikely. Was he an officer? No."

THANK YOU VERY MUCH FOR PUSHING TO MAKE THIS INFORMATION PUBLIC!

(In my opinion, this is a 'rape plant,' grown and cultivated into a 'leadership tree' that is full of tight lips and rotten secrets.)(Lust is the root of this evil plant.)
